LOGO Design

Creating Identities – Building Brands

We, at Logo Design Pros (LDP), understand how various industries differ from each other. That is why our services are designed in accordance with each industry's preferences. The result – an exceptionally designed logo that successfully manages to project the company's image as well as the brand's personality. Our brand of logos is classified into Inspired Illustrative Logos, Creative Animated Logos and Idea Specific Logos, each of which are designed to meet the individual needs of each client.

LDP's team of designers includes individuals who are professionals in their own right; each specializing in the skills related to their respective industry. Additionally, each designer understands that each company's needs are unique; therefore clients are presented with multiple concepts to choose from along with copyright protection.

About Us

History

Metro Fairway Indoor Golfing was started by two avid golfers who had both started their game in their twenties. From their experience in the sand traps, water hazards and constantly being rushed on the course, they knew that there must be a better way to get started in the game that would not cause as much frustration and stress. As they became better at the game the problem changed. How can someone continue to improve their game with such a short golf season. They found themselves packing away the golf clubs just as their game was starting to improve for the year.

It was soon after that they discovered golf simulators, the perfect solution to all their problems. It was a private place for newcomers to come and play without anyone judging their game. And a great place for them to work on their game during the long winter months.

Join Us

Our private simulators allow you to play your game, at your own pace. You can play on any of the 78 courses you desire, all while watching sports on the big screen and enjoying some great pub cuisine.

ROOF REPAIR

Know the difference between a patch and a repair! Using a tile roof for example, often what other roofers do is remove the tile and install another layer of roof material directly over the original layer. This is a short term solution often resulting in the same problem or bigger one reoccurring. A roof repair is when you remove all the existing roof material down to the wood decking. This is done to achieve two things. One, finding wet or water stained wood guarantees that the problem is corrected. Two, replacing rotten or water damaged wood helps in the restoration of the roof back to its original condition.

DBS General and Roofing Contractors Inc. uses the only latest techniques and materials when performing roof repairs. With over 10 years of experience we can accommodate all of your roof repair needs from a minor shingle repair to a multi-story custom tile repair. A complete scope of work is provided to the client and the repair crew assuring that all the work promised is performed.

ANIMATED Videos

Creative Communication – Greater Customer Response

Our animation services centre on our designers' proficiency in script writing (trained content writers for custom animated videos), creating storyboards (refined storyboard to highlight your product/services or better define your business), voiceovers (professional artists to a persuasive message) and animation (expert animators to deliver the final product as per your requirements). Therefore, at every stage, exceptional value is being added to deliver a custom animated video that not only meets company's requirements but also breaks all benchmarks when it comes to quality animation.

We, at Logo Design Pros, attach great importance to the impact visual appeal creates with a certain audience. That is why we believe in maintaining extreme professionalism and high quality in animation sequences. With professional content writers and animation experts, each highly skilled in their respective fields and well-versed in the dynamics related to each industry, Logo Design Pros creates animations that convey the message in the most impactful way.
